Customer Reviews

My grandson loves angler fish and absolutely loved this book. We have read it together several times and both learned a lot of things we did not know about them and a few other types of fish that live in the very deep part of the ocean. Great book, wonderful photos and a big hit in our house! Highly recommend this for any child interested in sea creatures.

I bought this for my children and they loved it! Keeping in mind that kids of all ages love the strange and mysterious, this is wonderfully informative and even appealed to the little kid in me with the pictures and detail.

My child loves this book. She reads it over and over again. I think every one of these has a page about the oil spill. Aside from that, these books are really great. The reading is challenging. The

facts and pictures are great. My daughter demanded to take this to class and her teacher looked at it, loved the book, and let my child read out of the book to the class. The teacher has requested a copy for her classroom library. Speaking of libraries, you might want to check your local one.

Great book my grandson loves it. Lots of great pictures very high quality exactly as expected. Hope this is enough words. Thank you

Given as a birthday gift to a 4-year old grandson, the book was a big hit. Lots of great photos to keep a little guy intrigued.

great info and beautiful pictures included. I bought this for an 8 year old and he is able to read it with just a little help.

Awesome pictures and an informative book. Bought this for my 10 year old who loves deep sea anything.
