## Customer Reviews

Very well done and good quality. This laminated fold out has proven very useful on my trips down to the coast. I can name every fresh water fish as it leaves the water, I admit to being pretty dumb when it comes to salt water fishing and women. This has been very helpful identifying fish, and I give up on the latter.

I was super excited when I saw this pamphlet for the first time. I was able to match up the fishes I caught in a last couple of weeks to the fish pictures on the pamphlet almost 100%. The pamphlet also gives good information on typical length of fish, location, and feature. This pamphlet is specific to the Texas gulf coast, so it is very accurate if you fish in Galveston, Surfside, etc.

This is a good little guide to have in your tackle box. It doesn't have all of the fish you are likely to catch on the Texas Gulf Coast, but it has some pretty good pictures and descriptions of about 30 or so. I guess if they did all of the fish it would be so big it wouldn't fit nicely in the tackle box. Still a great guide and would make a great gift for anyone who fishes the Gulf Coast.

This is perfect as a waterproof set of pics of fish caught in the gulf of mexico off the texas coast. Very easy to carry with you.

Fits in my tackle box, great pictures, easy to use.

Easy to use and laminated for outdoor use.
