I was in a hurry to get the book. Little did I know that this concised version does not include all the

chapters for California community colleges English 101 classes. Book itself might be good but if you're going for an English class this version is not for you.

It's your basic English COmp textbook. It's helpful more interesting probably than the average textbook. It prompted some pretty cool writing assignments so I guess I'd say it's above average.

The book arrived on time, but some of the pages were missing out of the back of it that I need for class. In other words, it was in excellent quality and it is working the best it can for my schooling.
