## Customer Reviews

I've been waiting to see what happened to Scarlett at the end of Suite Scarlett for what seems like forever! She and Eric had broken up and she had a job as Mrs. Amberson's assistant. We definitely get to catch up with the entire Martin family, and let me tell you, things get pretty darn crazy! Scarlett's brother Spencer is still working at being an actor, and when an unexpectedly large opportunity falls into his lap, he has to take it. Unfortunately, the consequences reach his family, but the Martin's are nothing if not supportive! Little sister Marlene is back from camp, and is being nice to

Scarlett. Scarlett knows something is brewing, but little does she imagine just what Marlene has planned! Lola is working and trying to figure out her place in life when she does something that absolutely no one sees coming, then does something that's more of a Spencer-act. Her choices will spin her family into a tizzy of emotions, but will things be alright in the end? And then there's our main girl, Scarlett. I love Scarlett. She has personality, depth and is snarky to perfection! Her job with Mrs. Amberson's theatrical agency has her doing dog-walking duty, spying on a fellow classmate, and being friendly with someone she isn't particularly too fond of. Of course she's doing this while cyber-stalking Eric, even though she keeps telling herself she'll stop. She can't help that she still really wants to be with him, can she? But then there's Max, her new biology lab partner and brother to her boss's new client. The boy is strange, but yet there's something about him that has Scarlett intrigued... The ending left me satisfied, yet begging for another book on the Martin family. Hopefully Johnson delivers, and soon!
